EXPENDITURE OF FLOOD CONTROL FUNDS IN 1970

Bulletin No. 158-70 reports expenditure of state flood control funds from January 1 through December 31, 1970, by the Department of Water Resources and The Reclamation Board. Sections 12830 and 12875 of the California Water Code require that expenditure of such funds be reported by the 15th day of each regular session of the State Legislature. Expenditures made during the year for projects under the jurisdiction of the Department and the Board are presented separately in this report.

During 1970 the Department issued reallocation orders in a net amount of \$5,803,907.94. Expenditures by the Department since its program's inception in 1946 total \$122,380,000. The Reclamation Board expended \$3,199,557 in 1970. Expenditures by the Board since its program began in 1917 total \$99,295,385.

The State's policy of paying nonfederal rights-of-way and relocation costs for authorized federal flood control projects is stated in the State Water Resources Act of 1945, the Flood Control Law of 1946, and the California Watershed Protection and Flood Prevention Law. The Department of Water Resources reimburses local agencies for the costs of rights-of-way acquisition and relocations for major Corps of Engineers' projects lying outside the Central Valley and for small Corps' projects and watershed projects throughout California. The Reclamation Board acquires rights-of-way and performs relocations directly for major Corps of Engineers' projects lying within the Central Valley.
